

DesignLine

Designline is our answer to low cost office fitouts. The slim 45mm profiles offer a refined minimalistic look without compromising the stability of the walls. Our grooved headsections allow you to easily centre your glazing or door frame after capping the wall, and our door jamb options allow for door widths of up to 50mm.

- Works with all ASL systems
- Designed for ceiling heights under 2.8m
- Includes glazing profile of 44mm x 25mm
- Includes door jambs, glazing bars and mullions
- Can be used independently or in conjunction with ASL head tracks

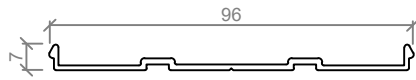

Standard Suite Profiles - Suitable for: 64 & 92 Steel Stud, 13mm Plasterboard incl. Glazing Profiles
